OBJECTIVE

Full-Stack Software Developer specializing in React.js, Next.js, Node.js, and TypeScript. Experienced in building scalable, responsive web applications, developing RESTful APIs, and implementing complex state management architectures using Redux-Saga. Proficient in both modern JavaScript ecosystems and PHP Laravel. Passionate about writing clean code, optimizing application performance, and delivering user-centric digital solutions.

EDUCATION

JC Bose University of Science and Technology, YMCA, Haryana, India

Bachelor of Technology (B. Tech) - Computer Science and Engineering (CSE) (Aug 2019–July 2023)

Relevant Courses: Data Structures & Algorithms, OOP (Object-Oriented Programming), Databases, Operating Systems.

TECHNICAL SKILLS

Frontend Technologies: React.js, Next.js, Redux, Redux-Saga, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend Technologies: Node.js, Nest.js, Express.js, Laravel

Programming Languages: JavaScript, TypeScript, PHP

Databases & Tools: MySQL, MongoDB (NoSQL), Git, Vercel, Netlify

Soft Skills: Team Collaboration, Leadership, Public Speaking, Communication

EXPERIENCE

RTF Insurance Broker Pvt Ltd. Greater Noida, UP
Software Developer | October 2025 – Present

- Developed RTF portal/website using React.js, Next.js, Tailwind CSS, and Node.js, implementing UI, dashboards, authentication, and API integrations.
- Optimized web performance, handled state management with Redux-Saga, and enhanced backend APIs using Node.js and PHP Laravel.
- Managed deployment, maintenance, and collaborated with cross-functional teams to implement new features and fix production issues.

PROJECTS

Shadiglam Website and Portal | *React.js, Next.js, Node.js, Tailwind CSS, MySQL* http://shadiglam.com/

- Developed a comprehensive makeup artist platform, user platform and admin portal from scratch.
- Implemented secure user authentication, interactive dashboards, user/vendor management systems, and booking/payment controls.
- Created and integrated custom backend RESTful APIs to handle CRUD operations and optimize database queries.
- Managed continuous deployment, version control, and platform maintenance using Git and Vercel.

MF Engineering and Fabrication Website | *React.js, Node.js, Bootstrap* https://mfengg.netlify.app/

- Developed a production-ready enterprise platform leveraging the MERN stack.
- Architected and integrated a customized backend API to manage automated mail services.
- Integrated Redux for global state management and utilized REST APIs for scalable backend connectivity.
- Handled application deployment and continuous updates utilizing Git and Netlify.

Career-Forge Website | *JavaScript, HTML, CSS, Bootstrap* career-forge.co.uk

- Developed and delivered a responsive consultancy website for a UK-based client, completing the project ahead of schedule.
- Enhanced user engagement by building an intuitive, cross-browser compatible UI.
